INTRODUCTION

We are pleased to announce the upcoming 4th Hands-on-Training workshop and 7th National CME at the Department of Psychiatry, AIIMS, New Delhi, India. The event will offer hands-on training in Transcranial Magnetic Stimulation (TMS) Therapy. In continuation of our commitment to advancing knowledge in neuromodulation and neuropsychiatry, this year's workshop features relevant presentations and talks by esteemed national and international professionals working in the respective fields.

To ensure and safeguard an optimal learning environment, the workshop is limited to 30 participants. The CME is seamlessly integrated with the TMS workshop to facilitate comprehensive understanding. This program serves as a distinguished platform for learning and collaboration with eminent figures in the field of neuromodulation, both nationally and internationally.

Mandatory registration is required for participation in the CME and workshop. The registration fee covers high tea, lunch, and dinner on the first day.
